

Shall America Be Crucified Upon An Iron Cross?

Shall all our national aspirations, hopes, ambitions, successes, be nailed upon a German Cross?
Shall the proudest nation of the world be exposed to German ridicule?

It is not only our money, labor, intelligence, our great future, that Germany seeks—It is the
Soul of America that she covets.

If Germany could mould our national thought and character, converting us into a people
ready to lie, steal, maim and kill at her unholy will, then indeed would there be joy in the
land where Might is Right and their God is an Evil Man.
